01

Introduce DBpia

What is DBpia?

- DBpia is a Korean academic journal platform
- DBpia provides full-text and bibliographic information of all the academic materials by online service.
- Find out research themes, academic papers, and the recent trends of studies from DBpia!

2,300 of Publishers

Academic Society, National
Research Institution, etc.

4,000 of Journals

Academic Journals,
Conference Materials,
Magazines, etc.

300 million of Academic
Contents

Academic papers,
Articles, Symposium
Abstracts, etc.

DBpia Membership

General Member

- A user can register individually as a member of DBpia.
- A user can use personalization provided in DBpia
- Everyone is free to be a member of DBpia without charge.
 - Naver/Google/Facebook accounts are available to register and login.
- After login as a member, please check your institutional access to use the DBpia for free

Author Member

- A user is who already wrote an article or planning to write an article.
- An author member can check the usage performance of their own research on the author's page.
- The author member can also use personalization provided in DBpia.

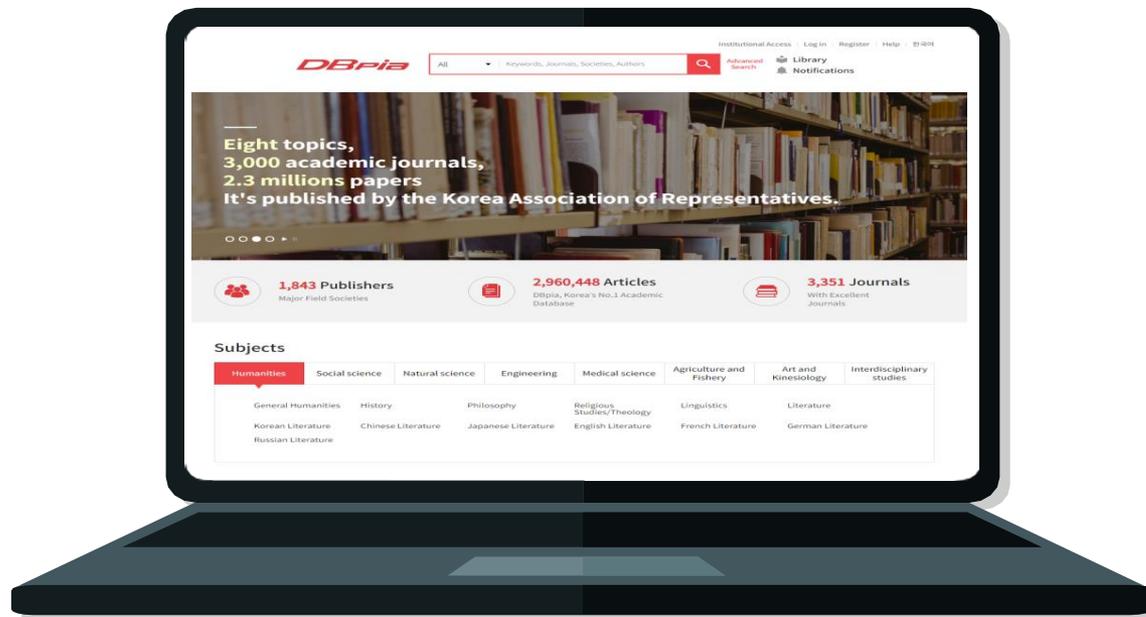

02

Institutional Authentication

- If certify affiliated institution in DBpia, free to use all the academic contents.

Institutional Authentication on Campus

- Use the PC on your campus that IP registered for the access of DBpia.
- Your institution is automatically certified via the IP authentication.

Institutional Authentication for Off-Campus

- Find and click the DBpia link on your library website.
- log in via your library's account and get the institutional access of DBpia.

Login

“Institutional Access” on DBpia

- If you have an institutional account, click the “**Institutional Access**” button on the top.
- Then, find your institution and fill in the username and password for the access.

Institutional Access Check your institution's DBpia subscription status and certify your institution. The article being subscribed to is available.

2 Find your institution

Please enter your institution name.

Please search for your organization and select from the list.
If you do not have an affiliate, check out which public libraries are subscribing to DBpia.

3 Enter DBpia institutional account

“Institutional Access” on DBpia

- Check the right way of ‘Institutional Access’ for your institution.

When you use DBpia on a PC at an institution (library) subscribing DBpia, the institution automatically acquires authentication. 😊

1

• How to use DBpia through the library website

- 1) You can check whether an institution subscribes DBpia by checking search-your-institution service.
- 2) Access and log in from the institution’s library website.
- 3) You can go to categories such as e-journals, academic database
- 4) You can click the DBpia (Nurimedia) link (banner) and go to the DBpia website.

To inquire ID/password information on library website, please contact institution.

If you go to DBpia site through institutional authentication on library website, due to NAVER · Google · Facebook site policy, SNS individual log-in may be restricted.

2

• How to use DBpia through the account provided by your institution

- 1) Please check institution subscribing DBpia by checking search-your-institution.
- 2) Please enter your ID / password information provided by the institution in the account field of an institution
- 3) Please click [Access]
- 4) Please check the institution name on your top right.

3

• How to use DBpia through the outside-access provided by the institution

- 1) Please check an institution subscribing DBpia through searching your institution
- 2) You can check the institution outside connection method in the institution’s website.

※ When the institution certification is completed, the institution name will be shown on the top right.

Then the subscribed articles will be available freely.

※ Please sign in as an individual member after the institution is authenticated.

Institutional status of the account will be maintained for 90 days.

You can sign in DBpia and as an individual member you can access to subscribing academic documents of your institution out of charge.

Ex) Seoul National University, Kim Nuri (D-90)

03

Find an article

- Find the desired article by the convenient search functions

General Keywords Search

- Type more than two words rather than one word to have accurate results.
- After the keywords search, check the 'Filters applied' to have more specific results.
 - If there are too many articles on the search result, click the option on the left side.
 - Reduce the search result by 'Issue Year', 'Subject', 'Journal', 'Type', etc.

Re-search within the search result.

Select a search target (title, title + abstract, authors, keyword name) to re-search on the search result.

The screenshot displays the DBpia search interface. At the top, the search bar contains the keyword 'library'. Below the search bar, a 'Filters applied' sidebar is visible, showing options for 'Issue Year' (Recent 1 year, 3 years, 5 years, Custom Range) and 'Subject' (Social science, Library and Information Science, Public Administration, Social Welfare, Engineering, Humanities, Agriculture and Fishery, Art and Kinesiology, Natural science, Medical science, Interdisciplinary studies). The main content area shows 'Recommended Journals' and 'Results' for 'All=library' (20,990 items). A 'Full text' toggle is highlighted with a red dashed box, and a red arrow points to it from the text 'Search to be included body text'. Another red arrow points from the text 'Select to see all the search result that the keyword included in body text of the articles.' to the 'Full text' toggle.

Search to be included body text

Select to see all the search result that the keyword included in body text of the articles.

Related Keywords Search

- Check the 'Related keywords' to see what other researchers looked up !

DBpia

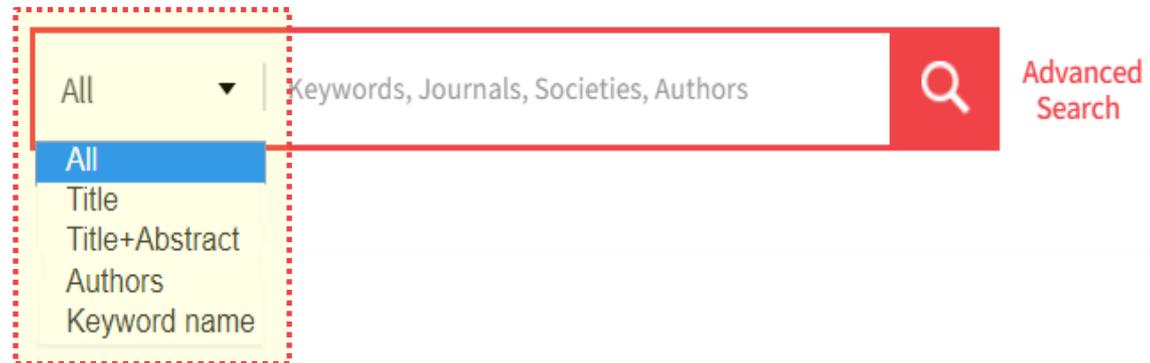

All ▼ | library  **Advanced Search**

Related keywords [빔라이브러리](#) [한국도서관](#) [정보학회](#) [한국문헌정보학회지](#) [한국도서관정보학회](#) [society](#) [proceedings](#) [대학도서관](#) [public](#) [digital](#) [Close ^](#)

Author's Name Search

- Search articles by an author's name.
 - On the search box, check the 'Authors' options before type author's name.
 - The search result will come up when the name of the author exactly matched.
 - Besides, title, title+abstract, and keyword can use to search for articles.

DBpia

The screenshot shows the DBpia search interface. On the left is the DBpia logo. To its right is a search box with a dropdown menu. The dropdown menu is open, showing the following options: All (highlighted in blue), Title, Title+Abstract, Authors, and Keyword name. The search box contains the text "Keywords, Journals, Societies, Authors" and a magnifying glass icon. To the right of the search box is the text "Advanced Search".

Advanced Search

- Use the advanced search when a user has clear conditions to search with specific words.
 - Such as title, journal, publisher, and authors to have an accurate search result.

The screenshot shows the DBpia Advanced Search interface. At the top left is the DBpia logo. To its right is a search bar with a dropdown menu set to 'All' and a search button. A red box labeled '1' highlights the search bar and the 'Advanced Search' button. Below the search bar is the 'Advanced Search' modal window, which is annotated with a red box labeled '2'. The modal window has a title bar with a close button. Inside, there is a search input field with the text 'Please enter your search term.' and a 'Multilingua' button. Below the search input are two rows of search terms, each with a dropdown menu set to 'All' and a search button. Below the search terms are three sections: 'Language' with checkboxes for All, Korean, English, Chinese, Japanese, and Other; 'Service discontinued content' with a 'Delete' checkbox; and 'Type of use' with checkboxes for 'View Original' and 'Citation only'. At the bottom of the modal are 'Reset' and 'Search' buttons. Red lines connect the annotations to the corresponding elements in the interface.

1 Advanced Search

2 Advanced Search

Select the search option
Set up the search target. (Title, Journal, Publisher, Authors)

Various search conditions
Set up the conditions as Languages, delete the service discontinued content, and type of use.

Abstract

O2O(Online to Offline) 세상을 기반으로 한, 초연결지능사회인 제4차 산업혁명 시대가 시작됐다. 본 연구 도입부에서는 제3차 산업혁명에서 제4차 산업혁명으로 넘어가면서 발생할 일자리의 문제점을 분석한다. 전통경제 사회에 O2O 융합경제라는 새로운 경제모양이 등장하며 최근 몇 년 사이 법과 규제를 포함한 다양한 충돌이 발생했다. O2O는 선택은 온라인에서 하고 오프라인에서 거래하는 단순한 '키머스' 형태였지만, 제4차 산업혁명에서는 빅데이터·클라우드·인공지능기술 등이 결합하며 실시간으로 소비자에게 최적화된 편의를 제공하는 '서비스' 형태로 진화하고 있다. 제4차 산업혁명에 대한 연구는 이제 시작 단계다. 본 연구에서는 제4차 산업혁명이 본격화되면서 펼쳐질 세상을 분석, 전망하고 가장 큰 위협으로 꼽히는 일자리에

Fourth Industrial Revolution Impact : How it Changes Jobs

Shang He Ahn* · Min-Hwa Lee**

Abstract :

We are at the beginning stage of a Fourth Industrial Revolution, a hyper-connected society based on O2O(Online to Offline). It's an revolution of AI(artificial intelligence). Beginning of this research, it will analyze new types of economy patterns and problems that have occurred as we move from the Third to the Fourth Industrial Revolution. While the world is changing through innovation , there is also concern, since innovation shakes the central axis of the existing economy. While facing a sharing economy, it came into conflict with existing regulatory frameworks from the traditional economy. The Fourth Industrial Revolution will bring us a new, optimized world by reinforcing connectivity. At the begging of the O2O industry, it was simply a type of commerce which connected online-to-offline or offline-to-online. It is now developing as a C2O service, by combining new technologies such as big data, cloud, AI, which provides consumers optimized convenience in real-time. However, there is not much research about the Fourth Industrial Revolution based on C2O. We should plan our future. This research discusses how to respond to the Fourth Industrial Revolution, especially focusing on how it will effect the future of jobs. First by undertaking a literature review it will show that throughout history there was no jobless eventually due to an Industrial Revolution. It will also anticipate new types of demand and desire through analysis. AI and C2O will bring experience economy. People will pursue their needs to fulfill their desires for happiness and self-realization. Their needs, moving from consuming goods to spiritual happiness and self-realization will bring new types of jobs.

[Keywords] Fourth Industrial Revolution, hyper-connected society, O2O, artificial intelligence, Job, Maslow's hierarchy of needs

Register new bibliographic data of an article in my library.

Edit the registered bibliographic data of the article.
(The edited information can check in my library Only)

My Library : Categorize the Articles

- Categorize all the articles into the folders by drag and drop or click the folders option.
 - An article can put into several folders.

The screenshot displays the 'My Library' interface. On the left is a sidebar with a 'My Library' section containing a list of folders: 'All Bookmarks (5)', 'Korean Articles (3)', 'English Articles (3)', 'Final assignment (2)', and 'Essay (1)'. Below this are sections for 'Manage Folders', 'Recommendations for Me', 'Viewed Articles', 'Manage Reviews · Notes', 'Alerts Settings', and 'Citation Style Settings'. The main area is titled 'All Bookmarks' and contains a list of bookmarked articles. The first article is 'Fourth Industrial Revolution Impact : H...' by Shang He Ahn, Min-Hwa Lee. The second article is 'User-driven Urban Park Development...' by 성현찬, 서정영, 이용구 and others. A red dashed box highlights the 'Assign to the following folder' dialog box for the second article, which has checkboxes for 'Korean Articles', 'English Articles', 'Final assignment', and 'Essay'. The 'Essay' checkbox is checked. A red arrow points from the 'Folders' button in the article list to the 'Korean Articles' folder in the sidebar. Another red arrow points from the 'Assign to the following folder' dialog box to the 'Essay' folder in the sidebar. A third red arrow points from the text 'Check where the article is organized.' to the 'Essay' folder in the sidebar. The 'Folders' button in the article list is also highlighted with a red box.

Check where the article is organized.

DBpia 회원가입

- Log in with the DBpia account that already registered.
- If already logged in, it will automatically access.
- Once going through the login process then the login status persists.
- After login, there is a set up function  to manage the DBpia account.

My library : Chrome Extension

3. If trying to import the bibliographic data of an article from the other website, click the icon .

The screenshot shows a Chrome browser window with a research article page from Elsevier. The article title is "Differences in brain signal complexity between experts and novices when solving conceptual science problem: a functional near-infrared spectroscopy study". The journal is "Neuroscience Letters", Volume 699, 23 April 2019, Pages 172-176. The authors listed are Laipeng Jin, Hulbin Jia, Huayun Li, and Dongchuan Yu. A Chrome extension menu is open, displaying the article title and a tip in Korean: "Tip! 논문 정보는 웹사이트의 정보를 참조하여 저장됩니다. 웹사이트에서 서지정보를 제공하지 않는 경우, 페이지 제목으로 저장됩니다." A red arrow points from the text "Recognize the bibliographic data of the current page." to the extension menu.

Recognize the bibliographic data of the current page.

My library : Chrome Extension

4. Recognized data can save into 'My Library' or copy the citation by 'Cite option'.

The image shows a sequence of three screenshots illustrating the workflow of the DBpia Chrome extension. The first screenshot shows the extension's main interface with a red header bar containing the user's name and a gear icon. Below the header, there are two buttons: '+ 내서재에 저장' (Save to My Library) and '인용하기' (Cite). A red callout box labeled '1' points to the '인용하기' button. The second screenshot shows a confirmation dialog box with the text 'DBpia 내서재에 저장되었습니다.' (Saved to DBpia My Library) and a blue '확인' (Confirm) button. A red callout box labeled '1' points to this dialog. The third screenshot shows a citation dialog box titled '인용하기' (Cite) with a close button (X). It offers two citation styles: 'APA양식' (APA style) and 'MLA양식' (MLA style). The 'APA양식' option is selected. Below the style selection, the citation text is displayed: '(2019). Differences in brain signal complexity between experts and novices when solving conceptual science problem: a functional near-infrared spectroscopy study. *Neuroscience Letters*. 699. 172-176.' A '복사하기' (Copy) button is at the bottom. A red callout box labeled '2' points to the citation text.

The bibliographic data can manage in the DBpia's my library.

Choose to copy a form of the APA or the MLA citation.

Purchase an Article

➤ Only DBpia member can purchase an article.

Way to buy an article

- A DBpia member can buy each article.
 - pay with a credit card, cellphone, and account transfer.

The diagram illustrates the process of purchasing an article on DBpia in three steps:

- Step 1:** On the article page, the **Access** button is highlighted with a red dashed box and a red circle containing the number 1.
- Step 2:** A **Buy Now** modal window appears. The **Buy Now** button is highlighted with a red dashed box and a red circle containing the number 2. The modal contains the following text:

Before purchasing, check your institution's subscription to DBpia. If you belong to an institution that subscribes to DBpia, you can use article.
[Browse subscribing institutions](#)

 - If you do not have an affiliate or belong to an institution that does not subscribe to DBpia, you must purchase article.
 - Even if you belong to a subscribing institution, it may be paid depending on the scope of the contract.
 - You can keep up to 30 items in cart.
- Step 3:** A **Purchase** summary table is shown. The **payment** button is highlighted with a red dashed box and a red circle containing the number 3. The table lists the item and its price:

Items	Pages	Price
Factors related to sleep duration in Korean adults	13	4.85
Total Price		\$ 4.85

Purchase History

- There is 'Purchase History' to check the history of the purchased articles.
 - 3 days (72 hours) of the valid date to download after purchasing an article.
